

ABSTRACT OF THE DISCLOSURE

A method and system for printing an electronic document is disclosed. In one aspect, a first media type for printing a first page range of one or more pages of an electronic document is selected. A second media type for printing a second page range of one or more pages of the electronic document is also selected. Information that identifies the first and second media types for printing the first and second page ranges of one or more pages of the electronic document are transmitted to a printing device. In response to receiving the information, the printing device generates a printed copy of the electronic document that includes the first and second page ranges; the first page range being printed using the first media type and the second page range being printed using the second media type.
